OFFICIAL FAQ MANUAL

2026

www.bridgemarkets.global

INTRODUCTION

The Official FAQ Manual 2026 has been designed to provide structural clarity to traders, clients and investors within the Bridge Markets ecosystem. This document addresses real frequently asked questions regarding the operation of an international Forex, CFD and synthetic indices broker, including its hybrid A-Book / B-Book model, liquidity structure, execution policies, risk management, AML/KYC compliance, Prop Trading programs and IB model. Proper technical understanding of these concepts is essential for responsible decision-making in leveraged markets. This manual establishes a transparent and professional institutional framework explaining how the broker operates and the risks associated with each instrument.

OPERATIONAL MODEL AND REGULATION

1. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

2. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

3. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

4. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

5. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

6. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

7. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

8. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

9. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

10. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

11. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

12. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

13. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

14. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

15. Institutional technical question related to operational model and regulation?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

EXECUTION AND LIQUIDITY

16. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

17. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

18. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

19. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

20. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

21. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

22. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

23. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

24. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

25. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

26. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

27. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

28. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

29. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

30. Institutional technical question related to execution and liquidity?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

RISK MANAGEMENT AND MARGIN

31. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

32. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

33. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

34. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

35. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

36. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

37. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

38. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

39. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

40. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

41. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

42. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

43. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

44. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

45. Institutional technical question related to risk management and margin?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

SYNTHETIC INDICES

46. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

47. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

48. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

49. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

50. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

51. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

52. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

53. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

54. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

55. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

56. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

57. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

58. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

59. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

60. Institutional technical question related to synthetic indices?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

FOREX AND CFDS

61. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

62. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

63. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

64. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

65. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

66. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

67. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

68. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

69. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

70. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

71. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

72. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

73. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

74. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

75. Institutional technical question related to forex and CFDs?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

PROP TRADING

76. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

77. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

78. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

79. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

80. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

81. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

82. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

83. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

84. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

85. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

86. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

87. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

88. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

89. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

90. Institutional technical question related to prop trading?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

SECURITY AND COMPLIANCE

91. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

92. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

93. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

94. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

95. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

96. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

97. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

98. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

99. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

100. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

101. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

102. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

103. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

104. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

105. Institutional technical question related to security and compliance?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

IB AND COMMERCIAL MODEL

106. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

107. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

108. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

109. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

110. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

111. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

112. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

113. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

114. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

115. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

116. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

117. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

118. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

119. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.

120. Institutional technical question related to ib and commercial model?

Detailed institutional response explaining operational structure, risk exposure, execution policies, liquidity framework, hybrid A-Book/B-Book model and regulatory compliance according to the developed topic.
